SUMMARY

Highly skilled and results-driven Full-Stack Web Developer with 6 years of experience, expertly architecting and delivering complex, high-performance web applications. Proficient in modern frontend frameworks (Next.js, React) and robust backend development (MERN stack, Django), I translate intricate business requirements into scalable, user-centric digital solutions, seeking to innovate and build impactful web platforms.

EXPERIENCE

Software Engineer Jan 2025 - Present
Netflix

- Architected and deployed high-performance, scalable microservices supporting Netflix's global streaming platform, directly impacting over 200 million subscribers worldwide. Drove end-to-end feature development and system optimizations, significantly enhancing platform reliability and user engagement.

SDE Jan 2024 - Nov 2024

Goldman Sachs

- Design and implement cutting-edge, high-performance software solutions, optimizing critical systems to process billions in transactions daily and drive global financial markets. Develop robust, scalable applications, leveraging advanced algorithms to solve complex financial challenges and deliver impactful technology across mission-critical platforms.
